

Welcome to the <u>Political Science and Sociology Library</u> for international Students : your Library.

Through the <u>Web Portal of the Library of the University of Granada</u>, we put at your disposal a rich and varied collection made up of more than 2 million printed and electronic documents in multiple formats. Also invite you to learn about the treasures that the Old Fund keeps, largely digitized, with which we hope to contribute to the intellectual and academic development of our community and society in general.

Likewise, we offer you a wide range of services that we hope will respond to the specific and changing needs of the digital environment in which we operate and we remind you that the entire team of professionals who work at the BUGr, on whose behalf we are addressing you, are at your disposal to facilitate access to the information we manage and to guarantee you the best service. (Try our new <u>App</u>!!!)

If you wish to visit us in person you can also do so at any of our <u>21</u> <u>Libraries</u>. You will find dynamic and integrating learning environments that have their paradigm in the CRAI model (Center for Learning and Research Resources) and that, with long hours, progressively adapt in spaces that facilitate collaborative work, study and reflection in a highly technological environment.

This is a brief guide to our resources and services :

The catalog of the BUGr,: <u>GRANATENSIS</u> (that means in Latin "from Granada") is the platform for access to <u>all the information resources of the University Library of Granada</u>.

A translation of the page in English language is not available yet. VPN connection is required to access to electronic resources licensed by BUG from outside. If you want connect to resources off campus UGR. <u>Configure your VPN</u>

Here, you can consult:

The printed and electronic collection of the BUG: books, magazines, audiovisual material, etc. ; articles of electronic publications. Digibug: institutional repository of the UGR... The University Library as a whole has more than 2,000,000 documents.

You can also find the <u>recommended bibliography</u> of each degree, with a new tool : <u>Libguides</u> : A wide selection of information resources
